DETAILED ACTION

Amendment

The amendment file 24 April 2006 has been entered into this application. Claims 23-36 have been added.

Response to Arguments

Applicant's arguments/remarks, see pages 12-14, filed 24 April 2006, with respect to the rejection(s) of claim(s) 1-22 under 35 U.S.C. 112, second paragraph and on the ground of nonstatutory obviousness-type double patenting have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.

Examiner's Reasons for Allowance

Claims 1-36 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

As to claims 1, 7 and 21, the prior art of record, taken alone or in combination, fails to disclose or render obvious calculating a 2-dimensional local offset (d) in the x-y plane for each measurement point as a function of the gradient, and the thickness (T) of object, and correcting the pattern to be written on said surface by using the 2-dimensional local offset (d), in combination with the rest of the limitations of the claim. Claims 2-6, 8-20 and 22 are allowable by virtue of their dependency.

As to claims 23 and 33, the prior art of record, taken alone or in combination, fails to disclose or render obvious calculating a 2-dimensional local offset (d) in the x-y plane for each measurement point as a function of the gradient, and the thickness (T) of object, and correcting the pattern to be written on said surface by using the 2-dimensional local offset (d), in combination with the rest of the limitations of the claim. Claims 24-32 and 34-36 are allowable by virtue of their dependency.

Additional Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed in the attached form PTO-892 teach of other prior art method for writing a pattern on a surface intended for use in exposure equipment.
